## Technical Specifications

- Special soundboard united to a precisely glued backframe affirms long-lasting construction, with a rich and balanced tonal spectrum.
- Climate-resistant laminated pinblock combined with a CNC worked cast-iron plate provides excellent and long-lasting tuning stability.
- Optimum lever balance in the action and a precisely equilibrated keyboard guarantee a flowing, pleasant touch. Making music with this instrument is pure pleasure.
- Keybed and keyframe are made of aluminum eliminating climate-related changes.
- Laminated keys made of 17 layers of timber with an additional hardwood inlet and are stable in all climates.
- Traditional pedal system with wooden levers, springs and a solid brass cast produces noiseless, easy to handle pedalling.
- Uniquely produced FEURICH celeste pedal enables quiet practice times.
- Smooth moving big wheels for easy shifting.
- The soft fall for the keyboard cover and black keys made of real wood accentuate the pianos extraordinary quality.

The unusual design of the cabinet of this model gives additional visual pleasure.
