Tradition & Innovation

Mod. 133 - Concert

feurich.com

Technical Specifications

- **A newly designed, built-in LED light** above the music rest, **a soft fall system** on the lid and **black key tops made from real wood**
- **A large, high quality wooden soundboard**, set in a precisely bonded locking system provides a full and rich bass, and a long and sustained tone, as found in small grand pianos
- **Duplex scaling**, in combination with **special felt** for hammerheads (AA quality from Wurzen in Germany) leads to a sound rich in overtones, ranging from strong and bright to gentle and warm
- **A climate-resistant laminated pinblock**, together with a CNC-milled iron plate, provide long-lasting **tuning stability**. CNC-milled **agraffes in the bass register**, provide precise termination of string speaking lengths, allowing optimum vibration of every string
- **Unique action design**, with an equally weighted keyboard, as found in grand piano models. First class felt, made by FEURICH in England. Keyboard and action made using **solid Austrian timber** to produce the perfect touch and enable **fast repetition**
- Elegant Pedal design: **noise-free** and requiring very **little maintenance**
- Reliable and easy-to-operate **celeste pedal** enables **night time practice**. Optional **Silencer System** for playing in headphone mode

A great professional concert instrument designed for performance.
